Acess your O-Pitblast App

Enter your projects

Select Drill Log

- Two ways to acess it:
- On the right side menu on your projects
- Inside of a selected borehole*

*When you open directly from a selected borehole it will direct you to the drill log of that borehole

Right side menu

Inside of borehole menu

How to use it

- Select meter by meter the area that you want to mark, and then select the type:
 clay, water, cavity, breaktrough, soft rock, medium rock, hard rock, fault
- Repeat the process until you have all your borehole information

Clear

 To delete the information, first select the area that you want to delete and then click on clear button.

Send report

- To receive an e-mail with a report (with all information) click on SEND DRILL LOG button.
- It will be sent to your O-Pitblast e-mail (associated with the app)
